

# 200 years

By Evie

200 years ago the National society had a dream that all children, no matter how poor, should have a chance to receive a Christian education. The society hoped that the light of learning would help them to grow and shine in the world. The hope came from their Christian belief that God sent Jesus to be the light of the world, to take away fear and show people a way through life.

The children are lighting the candle.  
Mrs Matter came in St. Mary's .

Candles are used for all sorts of celebrations.
